PRN uses the voice, experience, and resilience of people who have overcome trauma, substance use, and other mental health barriers to elevate recovery and wellness.

This foundation allows PRN to provide alternative pathways to healing that help others discover their unique path to wellness and thrive. SAMHSA's definition of Recovery and their Eight Dimensions of Wellness serve as the framework for all supports provided.

## Recovery is...

*"A process of change through which individuals improve their health and wellness, live a self-directed life, and strive to reach their full potential."*
